Dear Lachlan

Thank you for your email it is great that you are interested in creating a community garden, I have attached for your consideration Councils Community Gardens Policy.

<http://doc.shoalhaven.nsw.gov.au/displaydoc.aspx?record=POL16/137>

I have also got staff investigating the three sites you have suggested, so that we can outline their permissibility or what the requirements might be.

I am hoping this will be finalised at the end of the week so will forward this information to you early next week.

In the interim have you spoken with the Community group at Manyana about your proposal. This is always a good idea.

Regards

Susan Edwards

Subject: Community garden in Manyana

Hello public servant, my name is Lachlan Rombouts, I live in Manyana and I am A passionate gardener, builder and life enthusiast.

I have been talking to members of the community who also share a passion for gardening and healthy living and we all agree that having a community garden in manyana would benefit the community on many levels.

From access to healthy food and increasing a sense of a community with a place where strangers can meet, work and share knowledge together.

What I am asking for is a small piece of land that would be used to grow food and encourage all to become apart of the process of learning and shareing knowledge about gardening and sustainable living.

It would be best if this land was near a toilet facilities to make use of the rainwater that falls on the roof for watering purposes.

Me and my fellow community members are prepared to fundraise and work for free to make this dream into a reality.

Potential existing sites include beside the beach toilets at manyana beach (sunset strip)or besides the toilets at the soccer oval and skate park, or the toilets at cunjorong point (green island)

Thank you for your time and consideration
